

REIMBURSEMENT EQUIVALENT CODES

PATIENT FINANCIAL & REFERRAL INFORMATION

INSURANCE NOTES AND DISCLAIMERS

The purpose of this handout is to provide aid to patients who are seeking medical insurance reimbursement for procedures performed at Smart Skin Dermatology when paid for at the time of treatment by patient. This is not an exhaustive list nor intended to replace traditional documentation practices. While the list includes all the various treatments provided by Smart Skin Dermatology, it is not intended to suggest that patient received all treatments. For transparency and ease of patient use the singular list provides all of the treatments performed and only a small portion will apply to patient's individual care.

For all codes noted on this sheet it is recognized that codes are not a 1:1 exact match due to improper or inappropriate representation of valid FDA approved treatment therapies by traditional CPT billing guidelines. Codes represented on this list represent the most appropriate representation of the actual procedure performed.
