

# WEIGHT LOSS INJECTIONS

TIRZEPATIDE & SEMAGLUTIDE GUIDED THERAPY

## STEP 1 - CONSULTATION

- Expert education on therapy
- Candidate medical history screening
- Diabetic & prediabetic A1C testing
- Injection training & medication matching

## STEP 3 - FINDING YOUR DOSE

- All our dose “sizes” last 6-7 weeks
- The goal is to increase the dose until you are consistently losing weight and having less food cravings
- If you begin having gastrointestinal side effects that are not manageable or weight loss is too much too quickly then we decrease dose size
